GAYLE F. McKEACHNIE
Lieutenant Governor

June 10, 2004

TO: Minerals File

FROM: Doug Jensen, Senior Reclamation Engineer 

SUBJECT: Site Inspection, Anasazi Gold, Highland Mist Project, S/021/035, Iron County, Utah

Date of Inspection: June 8, 2004
Time of Inspection: 10:00 a.m.
Conditions: Sunny
Participants: Doug Jensen, Tom Munson, DOGM

Purpose of Inspection:

Site familiarization. I had not visited the site to date so while in the area, I visited the site.

Getting to the site:

The site is located immediately of highway 20, southeast of Beaver.

Observations:

The area below the site has been disturbed, but it appears to be associated with a reseeding effort rather than the mine. There were no other apparent disturbances at the site at the time of our visit. The site has yet to be approved by DOGM and the BLM; therefore, no activity was anticipated. The project needs to receive bond before acceptance can be granted.

Conclusions and Recommendations:

I will continue to monitor the site when in the area.
